

PUBLIC NOTICE

JLWWUC will be doing some trenching on Tobey Crescent tomorrow, October 26th, 2023. The road will be closed from 643 Tobey Crescent to the greenspace at the bottom of hill. In addition, water from 643 Tobey Crescent into and including Sutton's Beach will be shut off to complete the work, and there is a chance that a Precautionary Drinking Water Advisory may be issued. It is JLWWUC's intention that the project will take no longer than one day. We will update you with any further information if necessary.
