RE: Rescinding of Precautionary Drinking Water Advisory

Dear Administration:

This letter is to advise that the Water Security Agency (WSA) in consultation with the Saskatchewan Health Authority has by way of this letter rescinded the Precautionary Drinking Water Advisory (PDWA) issued to the **Hamlet of Bayview Height's in the RM of Meota** effective **September 9, 2022**. This advisory has been rescinded after the required samples from the distribution system have returned with acceptable results and the system has been flushed.

I would advise the Hamlet to issue immediate notice to the public of the rescinding of the advisory. Further, the Hamlet may return to its regular sampling intervals. If a positive sample is realized upon immediate return to regular sampling submission, the Water Security Agency may if believed necessary consider the issuance of a new PDWA.

Thank you for your cooperation in this regard. For further information please do not hesitate to contact the undersigned at 306-441-5774.

Sincerely,

A handwritten signature in black ink, appearing to read "Kris Dushire", with a stylized flourish at the end.

Kris Dushire
Environment Officer
Drinking Water and Wastewater Management Division
Water Security Agency

cc. Greg Holovach – Manager
Saskatchewan Health Authority
