Wing Road and RR 3174

Seal Coat Project - Update

The RM of Meota is completing a seal coating project on Wing Road from Highway 26 to the McMillan Road and on RR 3174 from Highway 26 to the Strathcona Meota West 2 Facility Access (Highlighted in red below)

The Wing Road seal coating is being deferred to a later date to address shoulder failures. The contractor is expected to start on **Range Road 3174 Friday September 11, 2026** is expected to take 2-3 days to complete.

One lane of traffic will remain open. Expect delays of 10-15 minutes.

The Public is advised to:

- ✓ Slow to 60km/h (this will not only save your windshield but result in a better final product. The 60 km/hr restriction will remain in place while the seal coat is curing.
- ✓ Avoid the intersecting roadways of Johnson Road until the chip seal is fully cured and flush coated.
