

Public Notice

Administration has completed the population of the official Civic Address Registry established by the Saskatchewan Public Safety Agency for the Rural Municipality of Meota. Addresses that had previously been assigned within Hamlets will remain unchanged. Rural addresses will be based on geographic locations of the driveway access to a building such as a residence or business combined with township and range road numbers. There will be no civic addresses assigned to vacant land.

You will find your civic address located on your 2024 tax notice. If you have questions regarding your civic address prior to that time, please feel free to contact our office.
