

PUBLIC NOTICE

Fitzgerald Road Project

The Fitzgerald Road is being clay capped from the intersection of RR 3174 to Range Road 3181.

In order to complete the project as fast as possible the contractor has been authorized to close portions of the road.

The contractor hoped to close portions of the road in two separate phases, however due to poor weather conditions, **the entire three-mile portion of the road will be closed at the same time, commencing June 21st.**

Please watch for detour signage and drive safely when passing construction workers.
